PRODUCT NOTES

The TPUQC3PD is the fastest and most powerful travel charger in its class as it is capable of Power Delivery and Qualcomm Quick Charge 3.0. The TPUQC3PD is capable of delivering up to 18 Watts of power for the fastest charge possible (charging times may vary base on the quality of the cable and your equipment's capabilities). For maximum charging speeds, use quality Top Greener USB cables or equivalent.

Safe charging with PowerPlus® technology: PowerPlus® will recognize the electronics that you plug in, then deliver just the right amount of power for the fastest charge your electronics can handle. It protects against short-circuit, over-current, and overcharging.

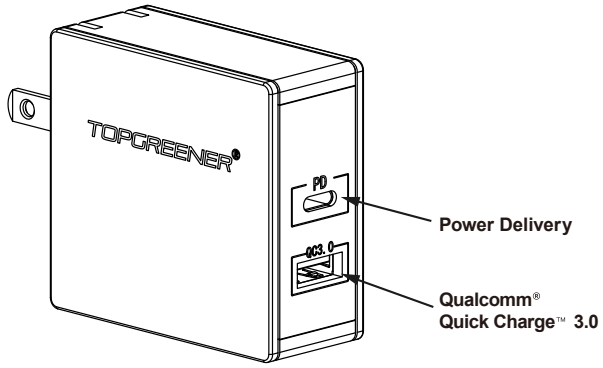
INSTALLATION/ USE

For use in the US and Canada, simply plug the TPUQC3PD charger directly into the 120V wall receptacle and use a quality USB cable with a Type-A or C connector to plug your device into the charger's USB port.

For all other countries, plug the proper adapter into receptacle, then plug the TPUQC3PD charger into the adapter and use a quality USB cable with a Type-A or C connector to plug your device into the USB port of the charger.

The TPUQC3PD will automatically detect your device's charging capabilities and provide the optimum power for your device.

At the end of the charge, the TPUQC3PD will automatically stop the transfer of power, therefore preventing overcharging.



COMPATIBILITY

The TPUQC3PD is compatible with Power Delivery devices and Qualcomm Quick Charge devices with the followingSnapdragon chipsets:
