Enhanced Web Features Announced at Top Greener, Inc.

Top Greener, Inc is looking to do more than just provide great products. This spring, they launched a brand new website with features that enhance the consumer online shopping experience.

"We want it to be easy for people. We know that not everyone is tech savvy, and not everyone has the time to research their wiring, wait around for pricey electricians, let alone afford all of that," says Sales Manager Gary Burns.

To this end, www.topgreener.com has several exciting new features. Customers can find detailed installation video guides. More than half of all wiring devices listed on the website have a video guide, with more on the way. These will empower more DIYers and save money on installation.

The enhanced website also offers quantity discount pricing. This is familiar to contractors, but not always offered to other consumers. Now, all shoppers on the TOPGREENER website will enjoy bulk discounts. This special pricing is offered on 95% of all products. Finally, whenever customers order on topgreener.com, they will get free standard shipping.

"We hope with these new features that our customers will find it easier and cheaper to make upgrades or do repairs," says Burns.
